DISCLAIMER

Whilst all due care and attention has been paid to accuracy in the compilation of this catalogue, neither the vendors nor the selling agents or representative(s) thereof assume any responsibility whatsoever for the correctness, use or interpretation of the information on animals included in this sale catalogue.

2025 BULL SALE

OFFERING DETAILS:

**Open Day: Friday 15th August
from 11am.**

All 82 bulls on display for inspection.

**Sale Day: Wednesday 27th August,
12 noon.**

82 Angus Bulls on offer through our
online AuctionsPlus sale.

Inspections can be arranged at any time
by appointment.

Rob Bulle 0407 369 203

Shaun Darmody 0487 654 308

SALE LOCATION:

5069 River Rd, Talmalmo, NSW, 2640

- From Albury – 50 mins
- From Wagga Wagga – 80 mins
- From Holbrook – 35 mins
- From Jingellic – 12 mins

BULL LOT VIDEOS:

Individual lot videos of bulls are available
at: www.youtube.com/@ardrossanangus7622

REBATES:

A 3% rebate will be offered to agents
who attend prior to or at point of sale.

RETAINED OWNERSHIP:

Ardrossan Angus retains 50% semen
share and marketing on all bulls included
in the 2025 sale. The semen share
carries forward if any bulls are sold to
another breeder.

CATERING

We invite you to join us for a free morning
tea and lunch.

ACCOMMODATION:

Holbrook Motel +61 2 6036 2099

Jingellic Hotel +61 2 6037 1290

2025 SALE BULLS

Welcome to the 2025 Annual Talmalmo Bull Sale, we are very proud to offer a consistent line-up of 82 Herd Book Registered Angus Bulls. This year's sale offering are all extremely docile, clean sheathed and are backed by impressive EBVs.

We have been breeding Angus and Ultrablack seedstock for over three decades. Alongside our seedstock operation we have a large commercial herd in Queensland, New South Wales and Victoria. This allows us to test our genetics in a range of climates and seasons creating selection pressure in a vast range of environments.

- **80% of the bulls have completed a joining season in our stud and commercial herd**
- **43 bulls in the top 25% for IMF**
- **25 bulls in the top 25% for EMA**
- **43 bulls under Breed average for BW**
- **33 bulls in the top 25% for 600 day weight**

- ✓ HBR Registered with Angus Australia and HD50K Genomic Tested by Zoetis
- ✓ Parent Assured (Verified to Sire and Dam)
- ✓ Free by pedigree or tested free of Genetic Disorders
- ✓ Fully Vet Checked by Seamus McKillop, Holbrook Vet Centre (30/06/2025)
- ✓ Structurally Assessed by Liam Cardile (16/07/2025)
- ✓ Tested Negative for Pesti Virus
- ✓ Vibrio Vaccinated
- ✓ 7in1 Vaccinated
- ✓ Fluke and Worm Drenched

ARDROSSAN ANGUS TEAM

The Ardrossan Angus program is driven by a skilled and dedicated team committed to producing cattle of consistent quality. Rob, Sally, Lachie & Becky Bulle, Shaun Darmody, John Whitley, Marni Evetts and Ned Harrison bring a wealth of experience across genetics, stockmanship and farm management. Their shared focus on performance, integrity and innovation ensures Ardrossan Angus continues to deliver value to commercial and stud clients alike.

2025 SALE FORMAT – HELMSMAN SELLING SYSTEM AUCTION

The Helmsman Selling System Auction combines the best features of a traditional auction system and private treaty, by creating a more considered and buyer-friendly environment. Unlike conventional auctions, this system gives purchasers ample time to evaluate and place genuine bids on any bull of interest at any point during the sale period. You're free to reassess each lot without the pressure of making split-second decisions, allowing for more strategic and confident purchasing. Bulls can be secured regardless of the lot order, giving you full control over your selections. If you're looking to purchase multiple bulls, the system also enables you to better manage your average spend and stay within your budget, making it a smart, flexible option for buyers seeking quality and value.

How the Sale will work:

1. Prior to or on arrival of sale, intending purchasers need to register online through AuctionPlus (staff available on the day to assist with any of this).
2. All bulls are displayed for inspection prior to and during the sale.
3. When the sale commences at 12pm all bulls are on the market, on AuctionsPlus simultaneously. You may bid on any animal regardless of lot number.
4. Contest bids in multiples of no less than \$1,000 from 12 noon and 1pm, then no less than \$500 from 1pm onwards.
5. The sale will remain open for 1 hour initially, until 1pm. At the conclusion of the hour, a 2 minute bid clock will commence. A bid on any lot will restart the countdown clock. Any further bids on any lot will trigger the same process, until a full 2 minute "no bid" period. This will conclude the sale on all lots.
6. All lots are open for purchase for the full duration of the sale and all lots will conclude at the same time.
7. If your "first choice" animal goes beyond your limits you can still bid on any other animal in the sale.

BEEF CLASS STRUCTURAL ASSESSMENT SYSTEM

Structural problems in cattle have a substantial effect on both the reproductive and growth performance of a beef herd. It is widely recognised that structural problems in sires have detrimental effects on conception rates, calving patterns and thus profitability. Similarly, females with inadequate structural characteristics are more prone to weaning lighter calves or conceiving later in the breeding season than their more functional counterparts. These structural problems are filtered through the supply chain resulting in reduced income for the producer, feedlot and thus reducing the overall productivity of the Australian Beef Industry.

Over the past decade, use of the Beef Class Structural Assessment System in the seedstock industry has produced a marked improvement in herds which have shown commitment to using the information appropriately. Through these dedicated breeders, there has been a flow on affect of structural improvement through out all sectors of the beef cattle industry.

Liam Cardile of 'BEEFXCEL' service many of the leading seedstock herds in Australia.

'BEEFXCEL' is not involved in any genetic marketing or specific breeding advice and therefore has no conflict of interests to influence their stock appraisal. The integrity of the structural data provided by 'BEEFXCEL' is recognised throughout the industry. Liam is a fully INDEPENDENT assessor.

ARDROSSAN STRUCTURAL PROGRAM:

The 2025 Ardrossan Sale Bulls have been independently structurally assessed to maximise the quality of stock on offer. Any animals deemed inadequate have been removed from the sale draft. The Ardrossan sale bulls were assessed by Liam Cardile of BEEFXCEL.

UNDERSTANDING EBV'S TABLE

BIRTH			
Calving Ease Direct	(%)	Genetic differences in the ability of a sire's calves to be born unassisted from 2-year-old heifers.	Higher EBVs indicate fewer calving difficulties in 2-year-old heifers.
Calving Ease Daughters	%	Genetic differences in the ability of a sire's daughters to calve unassisted at 2 years of age.	Higher EBVs indicate fewer calving difficulties in 2-year-old heifers.
Gestation Length	days	Genetic differences between animals in the length of time from the date of conception to the birth of the calf.	Lower EBVs indicate shorter gestation length.
Birth Weight	kg	Genetic differences between animals in calf weight at birth.	Lower EBVs indicate lighter birth weight.
GROWTH			
200 Day Growth	kg	Genetic differences between animals in live weight at 200 days of age due to genetics for growth.	Higher EBVs indicate heavier live weight.
400 Day Weight	kg	Genetic differences between animals in live weight at 400 days of age.	Higher EBVs indicate heavier live weight.
600 Day Weight	kg	Genetic differences between animals in live weight at 600 days of age.	Higher EBVs indicate heavier live weight.
MATERNAL			
Mature Cow Weight	kg	Genetic differences between animals in live weight of cows at 5 years of age.	Higher EBVs indicate heavier mature weight.
Mature Body Condition Score	Score	Genetic differences between animals in the body condition of mature females.	Higher EBVs indicate more body condition of mature females.
Mature Cow Height	Cm	Genetic differences between animals in the height of mature females.	Higher EBVs indicate taller mature females.
Milk	Kg	Genetic differences between animals in live weight at 200 days of age due to the maternal contribution of its dam.	Higher EBVs indicate heavier live weight.
FERTILITY			
Days to Calving	Days	Genetic differences between animals in the time from the start of the joining period (i.e. when the female is introduced to a bull) until subsequent calving.	Lower EBVs indicate shorter time to calving.
Scrotal Size	cm	Genetic differences between animals in scrotal circumference at 400 days of age.	Higher EBVs indicate larger scrotal circumference.
CARCASE			
Carcase Weight	kg	Genetic differences between animals in hot standard carcass weight at 750 days of age.	Higher EBVs indicate heavier carcass weight.
Eye Muscle Area	cm ²	Genetic differences between animals in eye muscle area at the 12/13th rib site in a 400 kg carcass.	Higher EBVs indicate larger eye muscle area.
Rib Fat	mm	Genetic differences between animals in fat depth at the 12/13th rib site in a 400 kg carcass.	Higher EBVs indicate more fat.
Rump Fat	mm	Genetic differences between animals in fat depth at the P8 rump site in a 400 kg carcass.	Higher EBVs indicate more fat.
Retail Beef Yield	(%)	Genetic differences between animals in boned out saleable meat from a 400 kg carcass.	Higher EBVs indicate higher yield.
Intramuscular Fat	(%)	Genetic differences between animals in intramuscular fat (marbling) at the 12/13th rib site in a 400 kg carcass.	Higher EBVs indicate more intramuscular fat.
FEED EFFICIENCY			
Net Feed Intake (Feedlot)	Kg/Day	Genetic differences between animals in feed intake at a standard weight and rate of weight gain when animals are in a feedlot finishing phase.	Lower EBVs indicate more feed efficiency.
TEMPERAMENT			
Docility	%	Genetic differences between animals in temperament.	Higher EBVs indicate better temperament.
STRUCTURE			
Claw Set	Score	Genetic differences between animals in claw set.	Lower EBVs indicate more curl of the claw set.
Foot Angle	Score	Genetic differences between animals in foot angle.	Lower EBVs indicate less heel depth.
Leg Angle	Score	Genetic differences between animals in leg angle.	Lower EBVs indicate a more angular leg angle.
SELECTION INDEXES			
Angus Breeding Index	\$	Genetic differences between animals in net profitability per cow joined in a typical commercial self-replacing herd using Angus bulls.	Higher selection index values indicate greater profitability.

Angus Australia Disclaimer and Privacy Information

Attention Buyer

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

Parent Verification Suffixes

The animals listed within this catalogue including its pedigree, are displaying a Parent Verification Suffix which indicates the DNA parent verification status that has been conducted on the animal. The Parent Verification Suffixes that will appear at the end of each animal's name.

The suffix displayed at the end of each animal's name indicates the DNA parentage verification that has been conducted by Angus Australia.

PV: both parents have been verified by DNA.

SV: the sire has been verified by DNA.

DV: the dam has been verified by DNA.

#: DNA verification has not been conducted.

E: DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively.

Privacy Information

In order for Angus Australia to process the transfer of a registered animal in this catalogue, the vendor will need to provide certain information to Angus Australia and the buyer consents to the collection and disclosure of that information by Angus Australia in certain circumstances. If the buyer does not wish for his or her information to be stored and disclosed by Angus Australia, the buyer must complete the form included below and forward it to Angus Australia. If the form is not completed, the buyer will be taken to have consented to the disclosure of such information.

Buyers option to opt out of disclosing personal information to Angus Australia

If you do not complete this form, you will be taken to have consented to Angus Australia using your name, address and phone number for the purposes of effecting a change of registration of the animal(s) that you have purchased, maintaining its database and disclosing that information to its members on its website.

I, the buyer of animals with the following idents _____

from member _____ (name) do not consent to Angus Australia using my name address and phone number for the purposes of effecting a change of registration of the animals I have mentioned above that I have purchased, maintaining its database and disclosing that information to its members on its website.

Authorised Name: _____ Signature: _____

Date: _____

Please forward this completed consent form to Angus Australia, 86 Glen Innes Road, Armidale NSW 2350

JULY 2025 DROUGHT MANAGEMENT FIELD DAY

Thank you to everyone who joined us for the Drought Management Field Day at Talmalmo. It was encouraging to see such strong interest in building resilience and sharing knowledge across our farming community.

We're especially grateful to Seumas McKillop, Brad Hine, David Lewis and Micheal Savli for sharing their expertise. Their practical strategies and firsthand experience offered valuable takeaways for navigating dry conditions. The day focused on making informed decisions relating to animal health, nutrition and producing/ sourcing quality fodder, while remaining profitable.

On the day, we walked through the current feeding process at Talmalmo. We viewed one of the above ground silage pit, discussing the importance of location, preparation and timing of producing quality fodder. Looking through the feed mixing shed, we conveyed how we aim to streamline the feeding process to ensure livestock are fed with accuracy and efficiency.

Looking through the containment pens, we discussed the importance of feed efficiencies and utilisation, by minimising waste, whilst ensuring all livestock receive adequate nutrition. This containment facility has allowed us to conserve our pastures and better monitor livestock health and performance.

Feeding cattle behind a hot wire allowed us to maintain uncontaminated feed, improving both intake and feed efficiency in a cost-effective way. It also helped reduce worm exposure and reinfection, supporting more targeted drenching, reducing the likelihood of drench resistance.

The Drought Management Day was a great opportunity to connect and strengthen our approach to managing tough seasons. We look forward to continuing these conversations and supporting each other through any challenges ahead.

2025 Ardrossan Angus Bull Sale
