THE ARDROSSAN ANGUS ADVANTAGE

Ardrossan Angus has producing seedstock genetics for almost four decades, shaped by a strong focus on structural soundness, fertility and maternal traits. The family business is currently operating in areas across the Upper Murray of Victoria, Southern Riverina and Northwest Slopes of New South Wales, and Central Queensland.

Left to right: Ardrossan Angus team; John, Rob, Shaun, Ned, Sal, Marni, Lach & Beck

FEMALES

Ardrossan Angus run over 1,000 Angus HBR Registered females, and over 300 Ultrablack MBR/APR Registered females, complemented by a large Angus commercial herd. The Ardrossan herd is run in large contemporary groups to ensure increased data accuracy and natural selection pressure. Every registered female in our herd is genomic tested, producing generational data-backed performance.

Our reproductive stud program is based around a single annual round of fixed-time artificial insemination, followed by a 6-week natural joining period. All commercial and registered females have to calve by two years of age and every year after, to remain in our herd. This demonstrates the superior fertility throughout our herd, built through generations of strict selection.

BULLS

All Ardrossan Angus bulls are run in large contemporary groups in Southern New South Wales, at our property, Talmalmo, on the Murray River. A large portion of our bulls are used at 15 months of age to join our herd across New South Wales, Victoria and Queensland. These bulls offer proven performance.

All bulls undergo a veterinary examination for fertility and structural soundness before being sold into a range of environments across Australia.

Our breeding program is anchored by industry-leading sires bred by Ardrossan Angus:

- Ardrossan Equator A241 (7651 registered progeny)
- Ardrossan Connection X15 (5281 registered progeny)
- Ardrossan Admiral A2 (4905 registered progeny)

These bulls have left a lasting imprint on herds across Australia and the world, known for their consistency, structural soundness and longevity.

ULTRABLACK

The Ardrossan Ultrablack herd holds a strategic integration of Angus and Brahman genetics. This allows for optimised performance across diverse Australian environments. All Ardrossan Ultrablacks are homozygous polled, offering the phenotype and performance of black Angus, complemented by the resilience from the Bos Indicus infusion. Ardrossan Ultrablacks are known for their sleek coat, high fertility, excellent carcass quality, docile temperament and adaptability.

ARDROSSAN GENETICS ACROSS QUEENSLAND

Ardrossan Angus has been selling genetics into Queensland for over 20 years. Ardrossan Angus and Ultrablack Bulls increase fertility, carcass quality and marketability of coloured cattle.

Ardrossan Angus progeny excel in Central Queensland:

- **\$1,330.00/Head** (542c/kg Live)
- 120 Weaned Steers – 6-10 months (240kg Avg)
- Seccombe Pastoral Company (Muttaborra)

- **\$2,080.00/Head** (489.6c/kg Live)
- 200 Feeder Steers – 12-24 months (424kg Avg)
- Clarry Hermann (Winton)

- **\$1,330.00/Head** (519.1c/kg Live)
- 191 Weaned Steers – 6-9 months (256kg Avg)
- Seccombe Pastoral Company (Muttaborra)

- **\$1,790.00/Head** (423.2c/kg Live)
- 128 Heifers – (423kg Avg)
- Rotherfield Grazing

- **\$1,785.00/Head** (430c/kg Live)
- 198 Angus X Heifers – (415kg Avg)
- Clarry Hermann

Steps To Register

Using your chosen device visit www.stocklive.com.au.

Click **BID** located next to the sale you wish to participate in.

New Users

To create an account click **REGISTER**. Fill in your details, then click **CREATE BIDDER REGISTRATION**.

You will receive an email prompting you to confirm your account, create a password, accept Bidder Account T&C's & Privacy Policy.

Congratulations! Your StockLive account has been created.

Existing Users

LOGIN & find the sale you wish to bid on, click **Request to bid** & **Accept terms to bid**.

Notified via email when your agent has approved you for bidding.

On Sale Day

Visit www.stocklive.com.au, when the sale is flashing **LIVE**, click **BID** to watch, listen & purchase.

Invoicing & delivery will be carried out as per your registration & account details by the respective selling agents.

ARDROSSAN ANGUS 30 2025 LONGREACH BULL SALE

Angus Australia Disclaimer and Privacy Information

Attention Buyer

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

Parent Verification Suffixes

The animals listed within this catalogue including its pedigree, are displaying a Parent Verification Suffix which indicates the DNA parent verification status that has been conducted on the animal. The Parent Verification Suffixes that will appear at the end of each animal's name.

The suffix displayed at the end of each animal's name indicates the DNA parentage verification that has been conducted by Angus Australia.

PV: both parents have been verified by DNA.

SV: the sire has been verified by DNA.

DV: the dam has been verified by DNA.

#: DNA verification has not been conducted.

E: DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively.

Privacy Information

In order for Angus Australia to process the transfer of a registered animal in this catalogue, the vendor will need to provide certain information to Angus Australia and the buyer consents to the collection and disclosure of that information by Angus Australia in certain circumstances. If the buyer does not wish for his or her information to be stored and disclosed by Angus Australia, the buyer must complete the form included below and forward it to Angus Australia. If the form is not completed, the buyer will be taken to have consented to the disclosure of such information.

Buyers option to opt out of disclosing personal information to Angus Australia

If you do not complete this form, you will be taken to have consented to Angus Australia using your name, address and phone number for the purposes of effecting a change of registration of the animal(s) that you have purchased, maintaining its database and disclosing that information to its members on its website.

I, the buyer of animals with the following idents _____

from member _____ (name) do not consent to Angus Australia using my name address and phone number for the purposes of effecting a change of registration of the animals I have mentioned above that I have purchased, maintaining its database and disclosing that information to its members on its website.

Authorised Name: _____ Signature: _____

Date: _____

Please forward this completed consent form to Angus Australia, 86 Glen Innes Road, Armidale NSW 2350

JULY 2025 DROUGHT MANAGEMENT FIELD DAY

Thank you to everyone who joined us for the Drought Management Field Day at Talmalmo. It was encouraging to see such strong interest in building resilience and sharing knowledge across our farming community.

We're especially grateful to Seumas McKillop, Brad Hine, David Lewis and Micheal Savli for sharing their expertise. Their practical strategies and firsthand experience offered valuable takeaways for navigating dry conditions. The day focused on making informed decisions relating to animal health, nutrition and producing/ sourcing quality fodder, while remaining profitable.

On the day, we walked through the current feeding process at Talmalmo. We viewed one of the above ground silage pit, discussing the importance of location, preparation and timing of producing quality fodder. Looking through the feed mixing shed, we conveyed how we aim to streamline the feeding process to ensure livestock are fed with accuracy and efficiency.

Looking through the containment pens, we discussed the importance of feed efficiencies and utilisation, by minimising waste, whilst ensuring all livestock receive adequate nutrition. This containment facility has allowed us to conserve our pastures and better monitor livestock health and performance.

Feeding cattle behind a hot wire allowed us to maintain uncontaminated feed, improving both intake and feed efficiency in a cost-effective way. It also helped reduce worm exposure and reinfection, supporting more targeted drenching, reducing the likelihood of drench resistance.

The Drought Management Day was a great opportunity to connect and strengthen our approach to managing tough seasons. We look forward to continuing these conversations and supporting each other through any challenges ahead.

Ardrossan Angus females – Kenya, Muttaborra Queensland
